REISSUE APPLICATION DECLARATION
UNDER 37 C.F.R. § 1.175

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

I, the undersigned inventor, hereby declare that:

1. My residence, post office address and citizenship is stated below next to my name

2. I believe that I am the original, first inventor of the subject matter described and claimed in US Patent No. 5,946,741 (the '741 patent), issued September 7, 1999, and of the subject matter disclosed and claimed in the above-captioned reissue application, which is a division of reissue application number 09/949,058.

3. I have reviewed and understand the contents of the specification and claims of the accompanying reissue application, including the Preliminary Amendment submitted herewith

App. No. : Unknown
Filed : Herewith

4 I acknowledge the duty to disclose to the United States Patent and Trademark Office all information known to me to be material to patentability as defined in 37 C.F.R. § 1.56. In compliance with this duty and in accordance with 37 C.F.R. §§ 1.97 to 1.98, an Information Disclosure Statement is being submitted herewith.

5. On information and belief, the '741 patent is partially inoperable by claiming less than I had a right to claim. Specifically, original Claims 1-20 fail to include coverage of a support member for a body cavity irrigation device, comprising a substantially elongated plate configured to extend across a rear portion of a toilet bowl and to be supported by an upper surface of a rim of the toilet bowl, the plate comprising a depending portion configured to generally correspond to the curvature of the rim at the rear portion of the toilet bowl, and an attachment member in the depending portion, which attachment member is configured to receive a tubular member in a selectively-releasable press-fit manner. At least one of the new claims presented in the reissue application is directed to such a support member.

6. All errors being corrected in the reissue application, up to the present time, arose without any deceptive intent on my part.

7 I declare that all statements made herein of my knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful, false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful, false statements may jeopardize the validity of the application or patent issuing therefrom.

Full name of Inventor: In E. Moon

Inventor's Signature: 

Date: 9-25-2003

Residence: 19031 Antioch Dr., Irvine, CA 92715

Citizenship: United States

Post Office Address: Same as Above
